Die grinders are often designed to allow the user to control the speed, though they are commonly used at full speed. However, for those looking to cut softer materials like plastic and wood, the variable speed will come in handy, as it prevents over-cutting or even the destruction of the workpiece.

Ensure financial records are in compliance with internal process documentation, generally accepted accounting principles, corporate accounting policies/control standards and applicable federal contracting regulations.

Job Details | Textron

A comb is a tool consisting of a shaft that holds a row of teeth for pulling through the hair to clean, untangle, or style it. Combs have been used since prehistoric times, having been discovered in very refined forms from settlements dating back to 5,000 years ago in Persia.

Comb - Wikipedia

Work Equipment in Healthcare. Work equipment is defined as any machinery, appliance, apparatus, tool or installation for use at work. The scope of work equipment is therefore extremely wide.
