University governing boards are important, but ethical lapses set them and their universities back. Ethical behaviour can be promoted through board culture, but also through developing awareness of the specific weaknesses of particular board cultures and safeguarding against them, transforming university behaviour.

Economic anthropology is a field that attempts to explain human economic behavior in its widest historic, geographic and cultural scope. It is practiced by anthropologists and has a complex relationship with the discipline of economics, of which it is highly critical. Its origins as a sub-field of anthropology began with work by the Polish founder of anthropology Bronislaw Malinowski and the ...

Project Summaries Alex Aiken. Project Summary: Artificial Intelligence (AI) is a broad and open-ended research area, and the risks that AI systems will pose in the future are extremely hard to characterize. However, it seems likely that any AI system will involve substantial software complexity, will depend on advanced mathematics in both its implementation and justification, and will be ...
