From solar eclipses to lunar craters, Saturn's rings, dwarf planets and so much more! This is a great upper level resource for this solar system unit study. 2.

Solar System Unit Study - StartsAtEight

OUR SOLAR SYSTEM. Our solar system is ancient. Early astronomers believed that Earth was the center of the universe and all other heavenly bodies orbited around Earth. We now know that our sun is the center of our solar system and eight planets, a handful of dwarf planets, 170 named moons, dust, gas, and thousands of asteroids and comets orbit around the sun.
