There's no doubt about it — electric car charging is different from fueling a car with gasoline. On the whole, it's much more convenient to charge an electric car — you get home, you spend 7 seconds plugging in, you go on with your day or night, and you spend 7 seconds unplugging when you are ready to drive somewhere again.

VW Service manuals | Instruction Manual

Before we begin, I should probably admit that the Mustache family absolutely did not need a new car. Or even a new used car. In fact, we didn't even need the two older used cars that we have been keeping around for the last five years, because our local life has blossomed so nicely in this small city that there is really nothing outside of biking distance, aside from the odd trip to the airport.
