CALFIREWEB: Library

iBook is a line of laptop computers designed, manufactured, and sold by Apple Computer, Inc. from 1999 to 2006. The line targeted entry-level, consumer and education markets, with lower specifications and prices than the PowerBook, Apple's higher-end line of laptop computers.It was the first mass consumer product to offer Wi-Fi network connectivity, which was then branded by Apple as AirPort.

The cashiers and floor staff have always been helpful and of good cheer. I have visited this store several times now because I visit an elderly relative in Hemet and do household chores which require visits to get odds and ends for repair and each time I have been able to find an employee to help and if the employee I asked for help was not knowledgeable they always called the person in the ...
