In statistics, quality assurance, and survey methodology, sampling is the selection of a subset (a statistical sample) of individuals from within a statistical population to estimate characteristics of the whole population. Statisticians attempt for the samples to represent the population in question. Two advantages of sampling are lower cost and faster data collection than measuring the ...

Did You Know? Did you know that 65% of America's fourth graders do not read at a proficient level? How about the fact that one out of six children who do not read at age level by the end of third grade will not graduate from high school?. It's clear that many kids struggle with literacy. That's why CLiF's programs and book giveaways aim to help children develop a love of books at a ...
